

## LANG-WISE STEM SCHOLARSHIP FUND

### Application Guidelines

---

*The Lang-Wise STEM (Science, Technology, Engineering, and Math) Scholarship Fund was established in the fall of 2022 at St. Croix Foundation by St. Croix resident and engineer Raydiance Wise in an effort to 'pay forward' the support she received from multiple organizations when she herself was pursuing a STEM degree. Recognizing that scholarships help to cover significant costs associated with higher education, this award is designed to encourage students to pursue STEM-related fields of study by offsetting expenses related to travel, clothing, textbooks, and other expenses that become burdensome. The Fund supports graduating seniors from public, private, or parochial schools on the island of St. Croix.*
